

“LINDA GENE” (lyrics: LEL, with LML tweaks; music: Michael Jackson’s #1 hit “Billie Jean”)

She was always the beauty queen on the Houston scene.
Blew Herbie’s mind like an answered dream: she was the one.
Who he knew he would want to be around.
We know she is the one who we all want to just be around.

They said her name was Linda Gene, with hair pristine.
Makes heads turn from Rice to the gym at Four Leaf.
And we all want to just be around.

People may have told you all fam’lies are the same.
But I learned when I left for school.
My mother and the mothers who sit here in this room
Are the best ones in the world; they totally just rule.

LINDA GENE is the best mother.
She’s just the one who everyone wants to know,
So she is never home.
Call... her cell phone, ‘cause she is never home!

From football games to opera nights, all the sights
On a cruise or on the Strand, always has plans.
She’s the one we just want to be around.
And the Omni will shake, just remembering her coffee cake (*what a cake*)

She grabs her cell phone at David’s pool, makes sure we’re cool.
Then says they’re leaving with friends for burgers and fries.
She’s the one we just want to be around.

People always tell me my mother is a saint
And I know they are oh, so right.
She listens and lightens any heart’s complaint
It happens every time, I’m so glad Mom is mine.

LINDA GENE is the best mother.
She’s the one we can’t wait to call her cell phone,
‘cause she is never home!

LINDA GENE is the best mother.
She and Herb made every day oh so fine.
I’m so glad Mom is mine! *And ours....*
