

## **Option 1: Physical CD** with its cool [look](#) to let *SPARKS* fly.... off the shelves!

\* from [Amazon](#), which sets its own price that includes shipping and takes into account that it's a double album's worth of songs

\* or from me: As a backup (if Amazon's temporarily out of stock), I currently offer a domestic sales option for \$22 (in honor of the new secular year), a great deal for a double album's worth of songs that *includes* domestic shipping & handling and applicable state & local use tax. Discounts possible if you buy several CDs at a time or do a pickup. If you're not buying in person, just send me a PayPal payment by clicking [here](#) (choose "Send", enter the amount, and use "Add a Note" to indicate information like your mailing address and if you want the CD signed, as well as a way to contact you if there are questions).

## **Option 2: MP3 download** (since you may no longer have a CD player!)

from [Amazon](#), [iTUNES](#), [Google Play](#), [etc.](#)

typically, the usual 99¢/song.... but only about 40¢/song by getting the full album!

## **Option 3: Stream [HERE](#)**

streaming's great for initial browsing and if you feel this (and possible followup) work is worth supporting, thanks for following up via Option 1 or 2 for you or your friends (which actually sends me thousands of times the support of a stream!) or via throwing a tip into the virtual guitar case (click <https://www.paypal.com/paypalme/LarryLesserMusic> and choose "Send") to help me cover the professional musicians, studio time, mastering, art, manufacturing, etc., since there wasn't time for a Kickstarter before recording and my limited availability for touring limits concert revenue – thank you for supporting innovative projects by independent artists/songwriters!

as you listen, enjoy *free* access to lyrics, etc. at:
